Mitch,

Miranda and I were extremely impressed with the job you did for us. So much so, we felt compelled to write a review for you below. We can't thank you enough for all your hard work, and exceeding our expectations. Feel free to use us as references, as we'd be happy to give a glowing recommendation for you and your company anytime.

Sincerely,

Mark & Miranda Zoltanski

When my wife and I started thinking about remodeling and repairing some things in our home, we were unsure where or whom to turn to. Living at Lake Norman in Cornelius, we had some previous experience with general contractors based in Charlotte who just never seemed to get the job done, were in a rush, or estimates were too high because they weren't local. Sometimes the perception of Charlotte contractors is if you live at or near the lake, you must have money to throw away or they just need to charge more because they travel further. When we called Mitch Browning at **Fine Line Construction** it was definitely a breath of fresh air. Mitch was the only company out of three who called us back the same day. One home improvement company never called back and the other called a week later. Mitch scheduled an appointment to meet with us the very next day for an estimate. After meeting with Mitch, it was obvious he was unlike other general contractors we had dealt with in the past. There was no pressure, no up-selling, just a laid back discussion about what we wanted to do. Not only did Mitch come in with a great estimate, but his ideas and workmanship exceeded our expectations. Our project came out fantastic, and Mitch and his crew did a great job. Ever since, we use **Fine Line Construction** for all of our home remodeling projects and recommend him to our friends, family and clients. Owning a real estate firm, I am constantly asked by my clients who does the best work in the area. I can answer confidently without question or reserve, and can put my reputation on the **line**, that Mitch at **Fine Line Construction** delivers the best quality workmanship in the area, and I know he will get the job done exceeding customer expectations every time!
